

## Bangor Mod 1 - September 2025 (Sept 8th - October 31st, 2025)

| Course Title | COURSE NAME  | Class Days | Class Times | Instructor            | Classroom |
|--------------|--|------------|-------------|-----------------------|-----------|
| AC120        | Payroll Accounting                                 |            |             | Brent Tabor           |           |
| AC203        | Managerial Accounting                              |            |             | Sofoklis Hiotellis    |           |
| BA100        | Introduction to Business                           |            |             | Leana Mitchell        |           |
| BA104        | Principles of Marketing                            |            |             | Scott Eckert          |           |
| BA105        | Human Resource Management                          |            |             | Dean Gualco           |           |
| BA208        | Business Management                                |            |             | Shana Brucia          |           |
| BA330        | Operations Management                              |            |             | Geoffrey VanderPal    |           |
| BA335        | Leadership and Management                          |            |             | Courtney Jane         |           |
| BA580        | Financial Statement Analysis                       |            |             | Todd Falcone          |           |
| BIO215       | Physiology   |            |             | Brent Carlini         |           |
| BIO270       | Virology/Infectious Diseases                       |            |             | TBD                   |           |
| BIO380       | Immunology   |            |             | Sunny Ferrero         |           |
| CA202        | Introduction to Cannabis II                        |            |             | Nyomi Barrick-Wommack |           |
| CA260        | Dispensary Operations                              |            |             | Raven Ariola          |           |
| CHEM241      | Chemistry II                                       |            |             | Melissa Derby         |           |
| CHEM301      | Organic Chemistry II                               |            |             | Melissa Derby         |           |
| CS115        | Introduction to Computer Concepts and Applications |            |             | Patrick Mensah        |           |
| EH111        | English Composition                                |            |             | Jessica Lauer         |           |
| GEN315       | Principles of Economics                            |            |             | Courtney Jane         |           |
| GEN330       | Introduction to Philosophy                         |            |             | TBD                   |           |
| HI205        | Healthcare Administration & Supervision            |            |             | Sherry Jimenez        |           |
| HI217        | ICD 10 CM Coding                                   |            |             | Patricia Gillespie    |           |
| HI224        | Healthcare Data Analysis & Statistics              |            |             | Amy Amway             |           |
| HI225        | Healthcare Reimbursement Methodologies             |            |             | Patricia Gillespie    |           |
| HS205        | Group Process                                      |            |             | Brian Spitsbergen     |           |
| HY103        | U.S. History 1865 to Present                       |            |             | Derek Hughes          |           |
| IDS450       | Holistic Approaches to Healthcare                  |            |             | Lorrie Springer       |           |
| MO212        | Pharmacology & Pathophysiology                     |            |             | Hilari Simmons        |           |
| MO224        | Advanced Coding                                    |            |             | Hilari Simmons        |           |
| MPH500*      | Foundations of Public Health                       |            |             | TBD                   |           |
| MPH510*      | Epidemiology                                       |            |             | TBD                   |           |
| MPS215       | Plant Physiology                                   |            |             | Nyomi Barrick-Wommack |           |
| MPS250       | Ethnobotany  |            |             | Jason Wilson          |           |
| MPS320       | Phytochemistry                                     |            |             | Jason Wilson          |           |
| MPS475       | Medicinal Plants Capstone                          |            |             | Raven Ariola          |           |
| MS110        | College Algebra                                    |            |             | Isaac Raymond         |           |
| MS210        | Math Applications for Physics                      |            |             | Isaac Raymond         |           |

|        |  |              |              |                         |            |
|--------|--|--------------|--------------|-------------------------|------------|
| MS315  | Statistics   |              |              | Jill Carnahan-Jarvis    |            |
| NU100  | Nursing Foundations I                                  | T/TH         | 9a-12p       | Christina Sapienza      | lounge     |
| NU180  | Lifespan I   | T/TH         | 11a-2p       | Debbie Holmes           | 3          |
| NU235  | Lifespan III   | T/TH         | 8a-12p       | Donna Colford           | 1          |
| NU275  | Transitions to Practice                                | M            | 8a-11a       | Denise Carr             | RM 6/TEAMS |
| NU410  |  |              |              | Lorrie Springer         |            |
| NU475  |  |              |              | Lorrie Springer         |            |
| NU600  |  |              |              | Ryan Holley-Mallo       |            |
| NU640  |  |              |              | Terri Lipps             |            |
| NU670  |  |              |              | Terri Lipps             |            |
| PC600  | Human Growth and Development                           |              |              | Marianna Oganessian     |            |
| PC605  | Internship II  |              |              | Zulaen Fernandez        |            |
| PN100  | Introduction to Practical Nursing                      | W            | 9a-1:30p     | Debbie Holmes           | 3          |
| PY101  | Introduction to Psychology                             |              |              | Jessica Worthington     |            |
| PY202  | Lifespan Development                                   |              |              | Jessica Worthington     |            |
| SA104  | Multicultural Counseling in Addiction                  |              |              | Marianna Oganessian     |            |
| SA201  | Addiction in the Family                                |              |              | Joanna Painton-Hathaway |            |
| SAC350 | Diagnosis and Treatment Planning in Addiction Services |              |              | Paul Walonin            |            |
| SAC360 | Foundations of Public Health                           |              |              | Lakesha Kinnerson       |            |
| SAC420 | Process Addictions                                     |              |              | Paul Walonin            |            |
| SC101  | Introduction to Sociology                              |              |              | Klaus Heyer             |            |
| WD100* | SMAW Fundamentals                                      | Mon-Thursday | 3pm-6:30pm   | N. Fox M.Merrill        | Weld Lab   |
| WD120* | Metallurgy and Blueprint Reading                       | Mon-Thursday | 6:45-10:15pm | N. Fox M.Merrill        | Weld Lab   |
| WD220  | GTAW Pipe & Aluminum Welding                           | Mon-Thursday | 7am-10:30am  | N. Fox M.Merrill        | Weld Lab   |
| WD240  | Fabrication and Pipefitting Fundamental                | Mon-Thursday | 11am-2:30pm  | N. Fox M.Merrill        | Weld Lab   |
| ZO115  | Human Anatomy and Physiology of the Structural Systems |              |              | Brent Carlini           |            |
| ZO116  | Human Anatomy and Physiology of the Organ Systems      |              |              | Brent Carlini           |            |
| ZO211  | Microbiology   |              |              | TBD                     |            |
